

OIKODOM²

Newsletter
July 2021

Godmanchester Baptist Church are excited to announce that our Oikodom 2 building project is underway.

We are very grateful that over the last 2 years we have received generous donations from many individuals and grants from organisations which means we are now at a point we are able to start building work.

We would like to thank all those who donated and provided grants, including: All Churches Trust; Norwood and Newton; Congregational & General; Bernard Sunley; Village Halls Fund/ DEFRA; Amey and FCC for their generosity and support of this project.

This project will continue the work we did in Oikodom 1 to improve our building by renovating and refurbishing our main hall and storeroom. Work will include new heating and air conditioning units, new insulation, new lighting, a new ceiling, walls bricked up and fixed, new carpets and furniture, new electrics, and new audio visual technology.

The main hall and resource room before any work started

ΘIKODOM2

Once the work is complete the facility will be available to outside hirers, and having this work done means it will be more usable by lots of different groups and activities throughout the week.

We are very pleased to be working alongside Chris McCrae from Campbell McCrae Architectural Services and David Smith from Swift Building Contractors Ltd on this project. We want to thank them for their support and work.
